

SHIPMENT OF ORE FROM
PROPERTY AT KENNEDY

The Cooper & Untacke team arrived here today with a shipment of ore from Smith & Warming's Independence Day property at the camp of Kennedy, sixty miles south of Winnemucca. Mention of this property has been made in this paper at different times and from all reports it is a valuable estate. So far only surface prospecting has been done on the claims, but this work has disclosed two good sized veins from which high-grade ore has been extracted at a number of openings.—Humboldt Star.

Bevo
THE BEVERAGE
The all-year-round soft drink
For business men, professional men,
men of sports—golf, bowling, tennis,
shooting, riding. For every body, every-
where, the year 'round. Bevo is hale
refreshment for wholesome thirst—
an invigorating soft drink. Ideal for
the athlete or the man in physical or
mental training—good to train and
gain on. Healthful and appetizing.

**U. OF C. HAS
TENNIS CINCH**

(By Associated Press) BERKELEY, Calif., Sept. 3.—So many brilliant tennis players are registered at the University of California this semester that college sport followers predict the California varsity will clean up all intercollegiate honors on the Pacific coast. Axel Graves, last year's captain, is back at the university after his tour of the east, but application to his studies in the law college may prevent him from going out for the team. He is considered the premier college tennis player of the west. Close competition is forecast among a half dozen players for a place on the team. Among these are "Beanie" Levy, "Dimple" Rothschild, Tevis Martin, former Lowell high school, San Francisco star; Henry Stephens, captain of this year's team; Ray Casey and Carroll Jensen.

**HAWTHORNE HOSPITAL
DAMAGED BY FIRE**
Fire which started in the sitting room of the Mineral county hospital caused a loss which the Walker Lake Bulletin estimates at \$200. The ceiling and walls of the building were badly scorched. It is believed the fire was started by one of the inmates throwing a burning match into a pile of paper in one corner of the room.
If you depend upon "pull" you'll soon be pushed aside.

**IMLAY SHOULD
TAKE THIS UP**

A man who had sojourned in Winnemucca for a month without seeing so much as a dog fight, in the way of excitement, declared himself as considerably disgusted when leaving town last Tuesday at the sight of a circus crew billing the town for the greatest show on earth. "I must be out of luck," he said.
Same man stopped over here at Imlay. Said he had wondered all month, at Winnemucca, where all the dust came from. He knows now. It comes from Imlay. Every time a railroad man, or his wife or dog, starts across the desert from the station to "the store" he, she or it raises a cloud of smothering sand which floats away to Humboldt county in the shape of a dust storm and gives rise to a story that Mt. Lassen is on the rampage again. Locomotives here have no use for the "sandbox."

Imlay is a sort of nice little railroad camp, as far off the earth as it could possibly be located, and a little farther now that it has joined Pershing county. It consists of twenty-one families living in railroad shacks, and a whole lot of what might be described as unattached persons, whose occupation seems to be "greasing the wheel," throwing switches, working oil valves, climbing on boxcars and waving arms and lanterns.
Trains don't go through here as they do at ordinary towns. They stop, and uncouple, and back up, and go ahead, and cross over from one track to another, and change engines, and get new crews, and wait for orders. Every conceivable sort of performance, it would seem, is indulged in, except the one logical one of getting up and leaving town. The train finally does that important thing, of course, but not until the gallery has become disgusted with the slap-stick stuff.
Then the hogheads and shacks and other strangely named bipsos who say they are tired, go over and roll on the grass in the little depot parks, and get up a game of con-can, or panguin, or horse, or nails, or perhaps even roll the bones for whatever they happen to have left, and tell about what a bum railroad the other fellow is. It's a gay life.—Winnemucca Silver State.

**\$5000 A YEAR
WAITER'S WAGES**
(By Associated Press) LONDON, Aug. 17.—The disappearance of German and Austrian waiters from the hotels and restaurants of fashionable London with the beginning of the war has left the field open to English waiters who are said to have been reaping a harvest.
One Piccadilly waiter says he earns \$5,000 a year, a considerable amount above the average; but investigation shows that it is not unusual for a good waiter to gather, in salary and tips, \$3,000 annually.
Much advice is given to men about to marry aside from the famous one of Punch, but in the way of warning none is better than this: Do not under any circumstances marry one who does not like flowers, children, old persons and a home.

**WALKER LAKE
COMPANY HAS
GOOD SHOWING**

(Continued from Page 1)
hole or winze in the tunnel is about six feet in depth and shows a vein of about five feet in width. About fifteen feet in further there is a winze of about fifteen feet in depth, from which assays from the top returned \$120 in gold, \$440 silver and 11.5 per cent copper, approximate values of \$31.50. About four feet from the bottom of the winze, assays returned \$352.40 gold and \$1.60 silver and 3.5 per cent copper or an approximate value of \$368.40. There is a winze about ten feet in depth in the back end of the tunnel which assays \$12.60 in gold and silver and 2.8 per cent copper. Development shows vein to be from four to five feet in width. About fifty feet easterly there is another vein in about three feet in width, and which seems to parallel the one just described, and is of the same formation, and yields substantial assay returns, the result of several assays being a trace of gold and silver and 21.17 per cent copper. Eighteen inches assayed \$80.44 and another eighteen inches of quartz matter, assayed \$21.49 gold, \$24.62 silver and .8 per cent copper.
This claim shows cropping on a well defined ledge for a distance of one and one-fourth miles, and assays from the cropping return values of from a trace up to \$490. The ore on the dump and that blocked out in the tunnel will approximate 500 tons at a value of \$60,000, regardless of what is above or below. This claim is about three quarters of a mile from the west side of Walker Lake, on the proposed Walker Lake highway, and on the main Hawthorne road, and is about twelve miles in a northwesterly direction from the town of Hawthorne, and about fourteen miles from Thorne on the Southern Pacific railroad. The ore can be hauled to Thorne or transported across the lake a distance of five miles at a reasonable cost.
The Lakeside No. 1 claim which adjoins the water's edge of Walker Lake, has a cut about three hundred feet from the lake and near the center of the claim. This cut is about twenty feet long and about ten feet deep, showing a lead about forty feet in width, quartz and talc, a sort of a crystallized formation on the surface. In the cut it becomes very soft and crumbly, what might be termed sugar quartz. Assays taken from the surface gave \$27.77 silver, \$149 gold, 1.60 per cent lead. Grab samples taken from various places in the cut assayed \$1.60 in gold, \$3 silver and .80 per cent lead, value \$43.80. Samples taken clear across the bottom of the cut assayed \$12.20 gold, \$64.40 silver, and 1.72 per cent lead. This ledge is an uneven ledge and will require considerable development work to determine the full value of this particular claim, but if it holds out according to the assays, it would be impossible to figure the values, owing to the fact that it is on the main road near Walker Lake, and as a shipping point it has no equal, as by means of a tunnel, from the water edge, the ledge could be cut at depth, and the ore could be run out of the mine directly into a barge and towed across the lake. This could be easily developed as a milling proposition, and with the proper equipment could handle a large tonnage, at a very low cost for mining and milling. There is great possibilities in this one lode alone, not considering the numerous other lodes and mining property owned by the company.
The Last Chance No. 1, Last Chance No. 2, and Last Chance No. 3, adjoining and located upon the same lode, has a lead about 100 feet in width, and samples picked at random from the surface, about two hundred pounds, reduced down to about two assay samples, gave \$7.20 gold, \$3.10 silver, 1 per cent lead, 4.8 sulphur, 6.40 per cent iron. There is a tunnel run in on this ledge, about three hundred feet, and the ledge cut at a depth of 175 feet. The quartz and pay ore at this point is about an foot wide. A drift was run for a distance of 100 feet in an easterly direction, where an incline winze was sunk to a depth of 35 feet, and the lead cut, and then another drift was run on the lead about 200 feet. At this point the quartz or payore was fifteen feet in width, where an incline was sunk to a depth of 160 feet. Numerous assays from this incline average as follows: \$14.45 gold, \$9.23 silver, 3.10 per cent lead, 8 per cent iron, 5.10 sulphur. Numerous assays give substantial values, which goes to show conclusively, that this property has passed the stage of a mere prospect, and can now be considered a mine.
The Rockwell Mining company has opened offices with John R. McKee, the resident agent, at 403 State Bank building, or further information may be had by addressing Elma Rockwell, Secretary, Box 52, Hawthorne, Nev.

**PIGSKIN BATES
OF THE COAST**

(By Associated Press) STANFORD UNIVERSITY, Calif., Sept. 3.—The punting prowess of "Dink" Templeton, former Stanford rugby player, is expected to win him a place on the Stanford varsity football team this fall. Stanford returned to the American game last year, after having played rugby since 1905.
Robert Evans, Stanford coach, is expected on the campus September 10, to arrange for the starting of active practice five days later.
Following is the tentative schedule for the season as arranged by Walter Ames, graduate manager:
Oct. 25—Oregon Agricultural college.
Oct. 28—Olympic club of San Francisco.
Nov. 1—St. Mary's college.
Nov. 8—University of Santa Clara.
Nov. 18—Freshmen game with University of California.
Nov. 25—Oregon university.
Nov. 27—University of Southern California.
Dec. 6—University of California.
IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF NEVADA, AND FOR THE COUNTY OF NYE.
In the matter of the estate of WALTER STURKEY, Deceased.
NOTICE OF SALE
Notice is hereby given that in pursuance of an order of the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye, made on the 28th day of August, 1919, in the matter of the Estate of Walter Sturkey, Deceased, the undersigned, the Administratrix of the Estate of Walter Sturkey, Deceased, will sell at private sale in one parcel to the highest bidder upon the terms and conditions hereinafter mentioned and subject to the confirmation by said Court, on after Thursday the 10th day of September, 1919, all the right, title, interest and estate of the said Walter Sturkey, Deceased, in and to the real and personal property hereinafter described, and all the right, title and interest that said estate has by operation of law, or otherwise, acquired, either thereto or in addition thereto, that said deceased at the time of his death, of in and to all those certain lots, pieces or parcels of land situated in the County of Nye, State of Nevada, as follows:
